

Help Sessions
Wed 11:00-12:30
Thurs 2-3
Fri 10-12

Topics for final:
What I will do with developmental dollar
What are we going to do for new development goals
flash drive 15-25 mins

Day 21
7/9/13

Disease
ted talk on small pox

show on google tour
now the most common disease
Give it a face

EARLY DETECTION EARLY RESPONSE

150000 people faught side by
side for several decades to
this disease globally

Most deadly disease in History

1st disease in history to be irraticated

it was so hard to cure because of massive scope-
many different lanquages and cultures

Should we irraticate or make immune?

What could I do with my discipline to irraticate disease?

How do we make interconnectivity a good thing
and is worth other risks that it might bring

Nursing

help administer vaccines
help those who already contracted it
teach others how to prevent it

What will we do about the next Pandemic?

What is the most common in Honduras
When/where was the last outbreak
How is it being treated

The only way is to contain it early and lock it up to prevent its spread
If not it would spread the entire world in 3 weeks, we would know what hit us
